

StarPVCU[®]

Martensitic 410

Stainless Steel Window Screws

Cost effective guarantee of corrosion resistance

▶ ***Guaranteed – 20 Year Warranty***

Fabricators can be confident of corrosion free stainless steel screws for the lifetime of their windows.

▶ ***Tested – 3,000hr Enhanced Protection***

StarPVCU Martensitic 410 self drilling stainless steel screws carry independent (UKAS) certification to 3000 hours salt spray test in accordance with BS 7479.

▶ ***Magnetic – For Ease Of Use***

Easier and more accurate use in the factory. Standard Phillips No.2 recess is deeper to improve grip and extend bit life.

▶ ***Easy Identifying Head Stamp***

Screws are clearly marked with identifying head stamp to indicate Martensitic 410 stainless steel.

▶ ***Fast Reliable Supply***

The comprehensive StarPVCU Martensitic 410 range for all window and door applications - available by next day delivery.

StarPVCU Stainless Steel Range

Enhanced Martensitic Stainless Steel - 410

410 grade Martensitic stainless steel is a harder grade which is capable of self-drilling and tapping into steel reinforcement. Screws are independently tested at a UKAS accredited test house to beyond 3000 hours salt spray test in accordance with BS:7479.

Austenitic Stainless Steel - 302

Because 302 grade Austenitic stainless steel is intrinsically soft, it is unsuitable for self-drilling applications. However, it is ideal for use in PVC-U only applications, giving excellent corrosion resistance.
